BOAT RACING WILL BE BIG ATTRACTION AT LEGION FESTIVAL

Third Annual Event Will
Offer Unusual Enter-
tainment Features

BIG SHOW STARTS SAT.

Plans for the most successful and entertaining American Legion festival ever held here have been completed by the committee of the local post for the third annual event to be held Saturday and Sunday at Channel lake.

Chief among the many attractions will be the speed boat racing Sunday afternoon, August 11, when a number of the best boats and pilots in the region will compete for honors. The course was marked out on the lake yesterday and the buoys were placed. While many prizes are offered to winners, the thousands of spectators expected to be present, will pay nothing to witness the races.

Concessions and mid-way attractions will center around Smith's Slide Inn, and the east shore line will offer points of vantage for those who will want to see the racing events.

The big show starts Saturday afternoon.

Gov. Emmerson Jolts Job Seekers at Kiwanis Meet

Says Spoils System Is
Not in Effect in
Illinois

Insisting upon a dollar's worth of work for the state for every dollar of pay, Governor Louis L. Emmerson told an inter-city meeting of Kiwanis clubs at Monmouth Tuesday night that the spoils system was not operating in Illinois under his administration. The governor's speech was timely, because at the present time his office is being besieged by office-seekers whose hardest political work has been to try to get on the state's pay roll.

"I want to apply the Kiwanis ideals of building and of service to state affairs," Governor Emmerson said. "I feel I have started in the right direction by ordering that every state employee give a dollar's worth of service for each dollar of pay."

"That may be hard on political workers trained in another school, the school of spoils politics. It seems to me that the day of spoils politics, the day when a political machine can arrogantly mismanage a state or community, is on the wane. The people of your community, of the state, and of the nation have awakened to a new idea of public usefulness and are today watching the administration of public offices more closely than ever before."

COUNTY POSTS OF LEGION TO MEET AUG. 11

The Lake county convention of the posts of the eighth district, American Legion, will be held at the legion headquarters on Forest avenue, Lake Forest, August 11. The business session in the afternoon will be followed by a picnic supper on the beach.

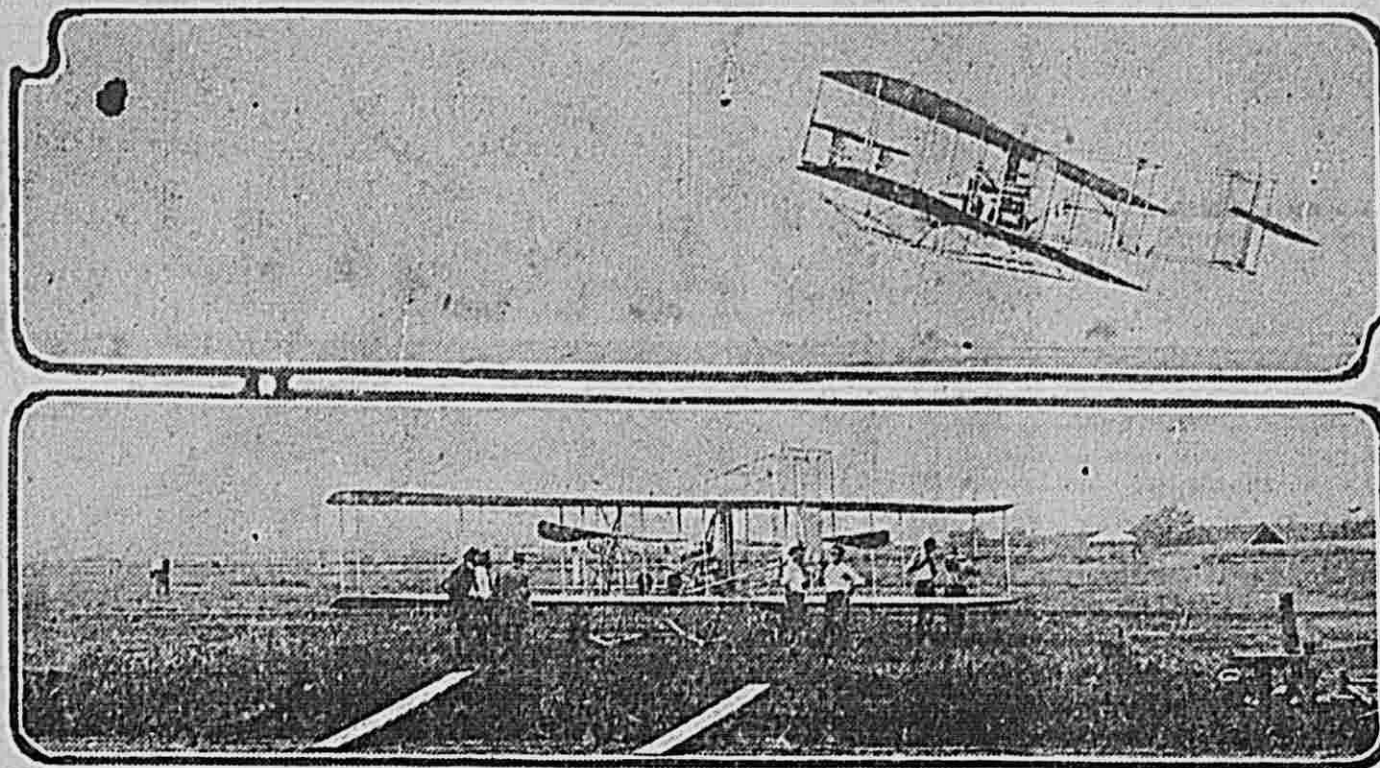

Lake Forest legionnaires, as hosts, are making preparations to entertain a large gathering. Posts having resolutions concerning legion activities or regulations which they deem practicable have been asked to present them at this meeting.

Delegates from this district to the state convention at Rock Island later this year will be chosen at this meeting.

CHICAGOANS PRAISE NEWS' MODERN PLANT

Misses Sylvia Harrison, Josephine Davis, and Sylvia Dunetz, Chicago girls spending their vacations at Camp Chi, called yesterday at the office of the Antioch News to inspect the plant. They were much impressed, they said, by finding modern printing methods employed in a town the size of Antioch.

Here's First Airplane Flight in Illinois

The photo at the top above shows the first airplane flight made in Illinois. Below is the plane on the ground, just before it took off from an out field adjoining the old Aurora Driving park. Frederick Welsh, the pilot, was later killed in a crash in Texas. The nineteenth anniversary of the flight will be celebrated at the first annual Central States Aircraft exposition at the Aurora airport, August 9 to 16. The plane pictured above, one of five then owned by the Wright brothers, will be exhibited at the exposition which is to be held on the same days as the Central States Fair and Exposition, and will be taken up in daily flights for comparison with the big modern planes.

FIFTEEN HUNDRED SEE FOX LAKE RACES COMMODORE'S DAY

Kinder Is Honored at
Speed Boat Regatta
Last Sunday

Commodore R. D. Kinder of the Fox River Power Boat club, was honored last Sunday afternoon when a crowd estimated at 1,500 attended the boat races held by the club at Fox Lake. This was another of the many regattas being sponsored this season by the club and the races are run over the fine new two and a half mile course on Fox Lake. Many of the races are sanctioned by the Mississippi Valley Power Boat association and the National Outboard association, so records made at Fox Lake are official.

Attain 44 Mile Speed
The fastest average speed attained last Sunday was in the free-for-all race for outboards in which boats traveled over the water at a 44 mile per hour clip. The average speed for class C boats was 36.75 m. p. h., while class B crafts averaged 35.50 m. p. h.

In the inboard free-for-all event, Harry Larsen piloting "Miss Alice" crossed the finish line first, with "Rosadale" Otto King's boat, Chicago, a close second. Others finished in the order named: "Mabelle, III", B. A. Rallison, Chicago; "Mickey", "Helen C III", John Chapp, Chicago.

Outboards Are Classy
First in the Class B outboard race was Tom Estlick, Waukegan, 800 points. Second "Hell Yes", H. G. Colby, Waukegan, 722 points. Third, MacGavin, Waukegan, 648 points. "My Weakness", piloted by Carl Kramer, Chicago, scored 800 points and came in first in the class C outboard race. Second, "Pokers", E. P. Lott, Chicago, 648 points; and third, "Hi-test", MacDonald, Waukegan, 617 points.

The outboard free-for-all, always an event of class, had many entrants. In this race, Tom Estlick, Waukegan, was a winner with 800 points, H. Gallert, Chicago, second, with 648 points; and "Firefly", piloted by Al Scholz, third.

Antioch Auxiliary Unit Is Honored

The Antioch unit of the American Legion auxiliary was honored at the Eighth District Auxiliary convention which was held in North Chicago, Monday evening, August 5, in that it was the winner of the prize which was offered for the unit having the largest attendance. This is the second competitive contest in which the local unit has won thus far this year. There were nineteen members from this city who attended.

Business Meeting Is Held

Mrs. Francis Mieczynski, district committee woman, presided at the meeting and Mrs. Pearl Duncan, department president, was guest of honor. Mrs. Harry Brown of Lake Forest, was elected the new committee woman. Mrs. Mieczynski, retiring committee woman, was chosen as a delegate to attend the state convention at Rock Island and the National convention at Louisville, Ky. Mrs. Tibbals presented Mrs. Mieczynski with an auxiliary and 8 and 40 pin from the district. Mrs. Duncan's interesting and instructive talk was enjoyed by all. Lovely refreshments were served by the North Chicago unit.

Local School To Have 4-H Exhibit at Aurora

Local visitors at The Central States exposition at Aurora, Illinois, during the week of August 9 to 16 are urged to look up Antioch's exhibits.

The department of vocational agriculture of the Antioch High school will have a sixteen foot display in the agricultural building. The painting of farm buildings will be featured by the local school.

In addition, the Antioch 4-H club members will exhibit approximately \$1,700 worth of livestock.

C. L. Kutill and his family will remain at the exposition for one week, as Mr. Kutill will have charge of the entire Lake county 4-H exhibits.

HAROLD GELSTRUP, MAGISTRATE, IS VICTIM OF PARALYTIC ATTACK

Missing for Two Days—
Is Found Helpless in
Room

Stricken with a paralytic attack that had rendered him helpless, Police Magistrate Harold Gelstrup was found in his rooms here late Tuesday, where he had lain since Sunday in a semi-conscious condition. Dr. Beebe was summoned and the patient was removed immediately to the Lake County hospital, Waukegan. The attack, it was discovered, had rendered him speechless and the right side of his body was completely paralyzed.

When last seen Sunday night at 10 o'clock, Mr. Gelstrup appeared to be in his usual state of health. Inquiry was made when friends had failed to see him Monday or Tuesday, and Mr. and Mrs. Tom Burnette, who occupy the Webb flat where Mr. Gelstrup has a room, also failed to see him. Knocking on the door and receiving no reply, Mrs. Burnette entered the room and found Mr. Gelstrup on his bed in an almost unconscious condition and unable to talk.

A slight improvement in his condition was reported from the hospital today.

Ladies' Guild To Have Bazaar Aug. 14

An all day bazaar and summer festival will be featured Wednesday, August 14, at the Guild hall. Members of the Episcopal Ladies' Guild are the sponsors. Cafeteria lunch will be served from 5:30 p. m., until all are served. There will be fancy articles, a grab bag, and amusements for all.

Hundreds of people were attracted to the summer festival which was held at the Palace August 1, 2, and 3. It was sponsored by the members of St. Peter's church and was a success financially and socially. Father Frawley and others who were connected with the carnival wish to thank those who patronized it.

yanski with an auxiliary and 8 and 40 pin from the district. Mrs. Duncan's interesting and instructive talk was enjoyed by all. Lovely refreshments were served by the North Chicago unit.

No Township Elections In Even Numbered Years After 1933, Law Provides

House bills 54 and 56, introduced by Representative Frederick W. Renick, Buda, and Senate bill 399, introduced by Senator Norman G. Flagg, Moro, change the terms and dates of election of township officers so that there will be no township elections after 1933 in even numbered years. The purpose of these bills is to eliminate township elections at a time when people are interested in primary and general elections for president, state and county officers.

ANTIOCH 4-H CLUB WINS IN STATE MEET

Lloyd Atwell Ranks High
Among Seventy-five
Other Students

Three Antioch 4-H club members, together with their club leader, stole away quietly Sunday afternoon and motored to Urbana, the home of the University of Illinois.

On Monday, they engaged in a Dairy Judging contest against 25 other teams from as many Illinois counties. The local team placed fourth, thus earning an honorary position. One of the members, Lloyd Atwell of Lake Villa, ranked fifth among the seventy-five contestants. Other members of the team are: Kenneth Denman and Lloyd Barnstable. All three are students of vocational agriculture at the Antioch Township High school. C. L. Kutill, instructor of that subject, is the club leader and coach.

Lotus Flowers Are Far More Numerous Than in Former Yrs.

Nature lovers who have been wont to travel to Grass lake in years past to view the beautiful lotus blossoms that bloom on that lake will have a more splendid sight this year than ever before, according to Jack O'Connor, owner of Blarney Island, which is located in the middle of the lake.

Blooming of the lotus beds, which are famous all over the world, started Sunday. By the end of the week there will be thousands of the flowers spreading all over the surface of the lake.

According to O'Connor, there will be eight to ten times as many blossoms this year as there were last year. Although visitors are allowed to pick some of them, the authorities at the lake try to keep the culling within reasonable limits, so that future visitors may have something to look at. The blooms will be on the lake until September.

Signs have been placed along the highways to guide tourists to the lotus beds.

Mrs. George Garland, her sister, Miss Alice Goldy, and her brother, John Beebe, who is visiting here, spent Wednesday and Thursday in Woodstock, Illinois.

MOONSHINE LIQUOR DRIVES GRAYSLAKE MAN TO SUICIDE

Guy Hook Turns Gun
on Himself After
Drinking Heavily

MAN WAS BUICK SALESMAN

Despondency brought on by drinking too heavily of moonshine liquor, and the fact that he had quarreled with his family, is believed to have prompted Guy Hook, a McHenry automobile salesman, to commit suicide at his home on Westernfield street, Grayslake, at 10:30 o'clock Monday night.

Hook is reported to have been drinking heavily in the evening. He came home and disturbed his wife and daughters, who reside with him. At that time he appeared intoxicated. He left shortly, only to come back again in a worse state.

The next time Hook left, Mrs. May Hook called the Grayslake police department. Marshal Chard answered the call and rushed over to the home, a short distance away. He found Hook in the automobile parked in the yard and acting quite peaceful.

After talking to Hook for a few minutes, Marshal Chard left for the police station to get a warrant for the arrest. He declares that Hook had been drinking but did not seem very drunk.

Finds Man A Suicide

A few minutes later members of the family heard the sound of a pistol shot. It was somewhat muffled by the fact that the doors and windows of the car were closed.

The body of the man reclining in the front seat of the machine, with blood streaming from the hole in his head and his right hand clutching the revolver, was found a few seconds after he had shot himself, by Ted Shelton, a son-in-law.

A bullet from a 32-caliber revolver entered the brain just above the right temple.

Shelton was the first to reach the machine. He was closely followed by other members of the family. It is believed that he was dead before members of the family reached his side.

After an examination by a physician the body was removed to the Strang funeral parlors. The coroner's inquest was held on Tuesday by Coroner John L. Taylor. Members of Hook's family knew of no motive for the suicide, declaring that he had never seemed to be so inclined. Hook is reputed to have been an habitual drinker and friends believe that this was the cause of his despondency.

Old Resident of Grayslake

The deceased who has been following the employment of an automobile salesman in recent years, was born and reared in Grayslake. He formerly owned a dairy business in Grayslake.

He is survived by his wife, three daughters and two sons, all of whom are prostrated with grief over the tragedy.

REV. DIXON RESIGNS ANTIOCH PASTORATE

Rev. H. Campbell Dixon, who has been pastor of St. Ignace's Episcopal church here for the last three years, has tendered his resignation, which will take effect October 1. He has accepted a position as executive secretary for the committee on the church's program in the diocese at Christ's Church cathedral, Louisville, Kentucky.

Beginning his ministry here in 1926 as lay reader, Rev. Dixon was ordained Deacon one year later and on June 24, 1928, he was advanced to the priesthood. He also has had charge of St. Andrew's church at Grayslake and the Mission of the Good Samaritan at Round Lake.

During Rev. Dixon's pastorate in this parish, many improvements have been made around the church. The new pastor has not been named, as yet.

Miss Edith Colegrove, who when visiting in Palatine, was a victim of the coffee cake poisoning case, has returned to her home east of the city. She reports that she is recovering, although still very weak.

WHO AIDS THE CRIMINALS?

"All honest as well as dishonest men know that the machinery of law enforcement is defective and out of date," says the Saturday Evening Post in an editorial on crime. Here is a problem not in politics or academic theory or dialectics, but in practical organization, which is supposed to be just the field in which the typical American citizen is best.

"It is the job and the conditions which surround the job that need attention. It is as a people we are incapable of improving the judicial and jury systems, of doing away with frivolous appeals, lessening the errand of convicts, expediting trials, simplifying indictments, and making the other necessary improvements in the actual technique of the job, then we have lost the art of self government.

"The people may have become more lawless or they may not; that is a moot point. In any case, respect for law will not be established by rhetoric. Why not concentrate first on what everybody knows is inadequate and outworn, the institutional machinery for doing the job?"

Expressed in a nutshell, what we need is less laws and better enforcement, more rationalism and less emotion in the handling of crime. More laws restricting the law-abiding on the theory that the criminal will thereby be curbed, merely encourage crime and increase law-breaking.

THE TIPSTER-SHEET "RACKET"

An article in the "Debunker" describes the operation of the dishonest stock-tipping "rackets" which defraud innocent investors of millions annually.

The customary approach of the stock selling shyster is to offer an "advisory" service at a very "low price" as an "introduction." Well-worded articles, giving analysis and advice, prove to be sound. The investor makes money.

Then an obscure issue is brought out. The investor is called "no matter how distant, on the telephone, by the 'editor' who is, in reality, one of a number of salesmen." "Hot" information is given the victim and again he profits.

Now the tipster is ready for his kill. The investor is told of the opportunity of a lifetime. The "editor" has obtained a block of promising stock at a low price and will divide it among his friends. Again the "sucker" buys. He goes in deeper as optimistic reports are sent out. By the time he is thoroughly fleeced the stock

is found to be worthless. Usually the tipster has disappeared.

Arrests are continually being made but by the time the authorities take a hand, the money has gone. To avoid such pitfalls the inexperienced investor should get advice from high class brokers or investment bankers.

STOP IT NOW

Discussing the automobile accident problem, the Jacksonville, Florida, Times-Union recently said, in advocating liability legislation on the order of the New York plan: "It is very evident that many persons are permitted to operate motor vehicles on streets and highways when there is no justification whatever for such permission to be granted or to be enjoyed. Irresponsible persons are the most numerous causes of accidents, fatal and otherwise.

"The very irresponsibility, as in the matter of paying for damages that result from their recklessness, ought to be sufficient to bar certain motor car drivers from using the public streets and highways. They are irresponsible, financially, frequently not owing the car or vehicle they operate in public. They laugh when damages, to be paid by them, are mentioned.

"They should be made to understand that they must pay for such accidents as they cause. If they cannot be made to understand this by education, then the teaching should be by way of drastic law, energetically and effectively applied.

"This entire matter of accidents due to the use of motor-driven vehicles needs more serious attention than as yet has been given to it. Otherwise the slaughter of innocent people will go on and increase in numbers. The general demand should be: Stop it now."

FIRE INSURANCE COSTS DROP

Improved construction of the average building erected during the past few years has resulted in property owners and tenants enjoying savings of millions of dollars in fire insurance premiums, according to C. W. Pierce, Vice-president of the Fidelity-Phenix Fire Insurance Company.

"Thousands of more or less antiquated buildings of different types in all sections of the nation have in recent years been supplanted by new, slow burning and fire resisting structures," said Mr. Pierce. "The results have been clearly reflected in the average fire insurance rate, construction being the first consideration in figuring the basis charge for fire insurance protection.

"In 1914, the average fire insurance premium charged by the leading stock fire underwriters of the country was \$1.03 a hundred dollars of coverage, while by 1928 it had declined to \$3.4 cents. On the amount of gross insurance written by 234 leading companies last year the difference in the premium rate meant a decrease of about \$23,000,000 in income as compared with what these underwriters would have reported under the 1914 rate. It represents, therefore, approximately that much saving to the public last year."

Huge Increase in Government

Cost Forecast

An increase in governmental expenditures of approximately \$3,000,000 during the next four years was indicated after a study of appropriations made by Congress and other mandatory obligations. The increase, if it materializes, will send the total yearly government expenditures out or ordinary receipts above \$4,000,000, for the first time since the heavy war expenses. The report of the investigation showed that additional expenditures for the military service, public works, postal deficit, farm relief and other Government costs

Suffering

MR. C. M. MARTENSON

"For years after each meal I have had to take something to relieve the awful indigestion pains," said Mr. C. M. Martenson, Route No. 1, Galesburg, Ill. "There was a feeling like a great mass lying in the pit of my stomach and gas would form, pressing against my heart so that I could scarcely get my breath. I was bothered with a sour stomach. My kidneys caused terrible pains across the small of my back. I had to rise many times during the night. I was subject to dizzy spells and terrible headaches."

"Konjola was recommended to me and I decided to give it a trial. After a short time my digestion improved, and I am never bothered with pains after eating and the terrible gas never forms. My kidney ailments have disappeared and my rest is never broken at night. My whole body is free from pain and I want to endorse this medicine to the public. Konjola is sold in Antioch at S. Reeves' drug store, and by all the best druggists, in all towns throughout this entire section.

Says--

The Weatherman has treated us to several varieties lately. He even dished out some "specials." Nevertheless, many complaints have been voiced.

When the weather is wet, we must not fret;
When the weather is cold, we must not scold;
When the weather is warm, we must not storm;
But be thankful together, whatever the weather.

These are the days when the post-office force must be handled with care. Their business has been on the increase since August 1. Maybe some of you business men haven't had any evidence of it yet. If not, hang on to your tempers and remember that optimism (doesn't happen to be honesty, this time) is the best policy. We wish you all the luck in the world and hope that each day's mail will make you feel more and more like John D.

An old timer was heard to remark, "A person almost has to have his life insured before he crosses the street in Antioch." This statement about the "World's Best Small Town" isn't so far off. Can't knock the town for it, though.

Another post-office thought—the News has been accused of almost everything. The other day, someone, when walking by, said, "Is this the post office?"

Mothers aren't the only ones who have cause to worry about the heavy traffic in Antioch. Main street has often been the scene of a poor little urchin on one side and his dog on the other. From the breathless kid—"Come on, Fido, quick, before the cars run over you!"

Cradling wheat is not a forgotten art in Antioch, according to Mrs. Amelia Herman, who took great interest in the harvesting by old time methods of a small but bountiful crop grown on a small tract of her land. Jake Drom sowed the wheat. Jud Van Duzer cut it with his old style grain cradle, and Adam Dibble and Mr. Drom raked the grain and bound it into sheaves. That the gentlemen named did a good job at the ancient art of harvesting by hand is attested by Mrs. Van Duzer and Mrs. Minnie Lux, who inspected the work and pronounced it good.

With the ever increasing number of cars on the streets, it is a source of wonder how the pedestrian manages to "get by" as well as he does. If old man Prophet has it right, it won't be long now before the foot traveler will have to perambulate at his own risk.

Sunshine, Naturalness

Homes.

No article of furniture should be put in a room that will not stand sunlight, for every room in a dwelling should have the windows so arranged that some time during the day a flood of sunlight will force itself into the apartments. The importance of admitting the light of the sun freely to all parts of our dwellings cannot be too highly estimated. Indeed, perfect health is nearly as much dependent on pure sunlight as it is on pure air. Sunlight should never be excluded except when so bright as to be uncomfortable to the eyes. A sun-bath is of more importance in preserving a healthful condition of the body than is generally understood.

A sun-bath costs nothing, and that is a misfortune, for people are deluded with the idea that those things only can be good or useful which cost money. But remember that pure water, fresh air and sunlight homes kept free from dampness, secure you from many heavy bills of the doctors and give you health and vigor, which no money can procure.

It is a well established fact that people who live much in the sun are usually stronger and more healthy than those whose occupations deprive them of sunlight. And certainly there is nothing strange in the result, since the same law applies with nearly equal force to every animate thing in nature. It is quite easy to arrange an isolated dwelling so that every room may be flooded with sunlight some time in the day, and it is possible many town houses could be so built as to admit more light than they now receive.

Sunshine Substitutes
Handsome furniture will not, unaided, make rooms cheerful. The charm of a cosy home rests principally with its mistress. If she is fortunate enough to have sunny rooms, her task is half done. In apartments into which the sun never shines recourse must be had to various devices to make up, so far as may be, for this grave lack. A sunless room should be warmly tinted, the curtains give a rosy glow to the light that passes through them. An open fire may diffuse the sunshine but lately imprisoned in oak and hickory, or ages ago locked up in anthracite. Ferneries and shade-loving plants may contribute their gentle cheer to the room and suggest quiet forest nooks. An attractive room need not be too orderly. A book left lying on the table, a bit of needle-work on the window-sill, an open piano, may indicate the tastes and occupations of the inmates, without suggesting that there is not a place for everything in that room. There is such a thing as being too neat and nice to take comfort in everyday life, and this is anything but cheerful. And then there is such a thing as being so disorderly and negligent that comfort and cheer are impossible. If the house-mother cannot rest while there is a finger-mark on the paint or a spot on the window-panes, she may make a neat room, but her spirit will keep it from ever being cheerful. If she has no care for the "looks of things" her failure will be equally sure. A bird singing in the window, an aquarium on the table in some corner, plants growing and blooming, domestic pets moving about as if at home, these give life and brightness to an apartment, and afford constant opportunities for the pleasantest occupation and companionship. Books people a room, and pictures on the walls, if selected with taste, are ever fresh sources of enjoyment. You may gauge the refinement and civilization of a family by these infallible tests, unless they have been selected by some outsider. Bits of embroidery, of scroll-work, and a thousand tasteful devices may contribute to the charm of a room and make it irresistibly attractive.

Remedy For Cancer Is

Said To Be Remote

A far-seeing, long-time program, amply financed, must be the foundation for initiating any Federal investigation seeking a cure for cancer from which medical science seems about as far today as when research on the subject started over 15 years ago. This is the opinion of medical consultants communicated with by a sub-committee on the Senate Commerce Committee. Communications received from Johns Hopkins University, Columbia University, Cornell University, Yale University and other sources, all tend to emphasize the extreme difficulty of the problem of finding a cure for cancer and to discourage much hope for early success, even though the Government should undertake to enter this field.

Sally Ann's
Adventures

at Her Grandmother's

Sally Ann's birthday was coming and she was just getting over the measles, so grandma couldn't have much of a party for her. Only grandpa, grandma and Aunt Mae could come. (Aunt Mae is spending two weeks at the farm).

"How can we have a good time with such a few there?" said Sally. "I won't have a nice party at all this time." Grandma had always invited at least a dozen little boys and girls when it was her little granddaughter's birthday. Do you blame Sally for almost crying?

It was Aunt Mae who calmed her heart by telling her that she knew of a way that they could have a real party for Sally, even though her little playmates, including Ollie, couldn't come. (You remember Ollie, little boys and girls.) Sally was more than tickled to have a secret with Auntie, who always managed to make her little niece happy, if she could. Aunt Mae and Sally planned the whole thing. You just read on now and see if you don't think that it was about the nicest birthday party that you ever heard of.

Maybe you have been wondering all this time when Sally's birthday was. Well, it was last Tuesday, and you'll be surprised to hear what she did on Monday. She sent out some real invitations and whom do you suppose she sent them to? You'd never guess—to her grandma, grandpa and Aunt Mae. This is what her auntie wrote on them:

"Sally Ann's fourth birthday will be celebrated at grandpa's Wednesday evening. You are invited to come. Please bring something for the rest to guess."

Wednesday night found the four guests seated in the living room. Sally was so happy that her eyes fairly sparkled.

Aunt Mae was the first one who had to make the rest guess. She had the pictures of seven kinds of animals pasted on a piece of paper and when she held it up, grandpa, grandma, and Sally had to guess what animal each picture represented. Wasn't that fun? The one who got the most right was supposed to get a nice bag of candy, and who do you think got it? Sally Ann. No, sir grandma and grandpa didn't get hardly any right; maybe it was because they can't see so well as Sally can. They didn't feel so bad about it though, because Sally gave them some of the candy.

Grandpa's turn came next. He pulled a bag out of his pocket; then everybody had to guess what was in it by squeezing it. Grandma guessed beans, Sally guessed stones, and Aunt Mae guessed peanuts. She was right too. Grandpa then treated all of Sally's guests to the peanuts.

Sally had them guess how many toes she had. Grandma guessed seven, grandpa, five, and Aunt Mae, nine. How many do you think she has? When Sally told them that no body was right, because she had ten toes, they wouldn't believe her, so she had to take off her shoes and count them.

When it came time for grandma to

Um-m New Potatoes; and
So Many Ways To
Fix 'em!

Boiled Potatoes

Old potatoes are better for being peeled and put in cold water an hour before being put over to boil. They should then be put into fresh cold water when set over the fire. New potatoes should always be put in boiling water, and it is best to prepare them just in time for cooking. Are better steamed than boiled.

Mashed Potatoes

Potatoes are not good for mashing until they are full grown; peel them, and lay them in water for an hour or more before boiling, for mashing.

Old potatoes, when unfit for plain boiling, may be served mashed; cut out all imperfections, take off all the skin, and lay them in cold water for one hour or more; then put them into a dinner-pot or stewpan, with a teaspoonful of salt; cover the stewpan, and let them boil for half an hour, unless they are large, when three-quarters of an hour will be required; when they are done, take them up with a skimmer into a wooden bowl or tray, and mash them fine with a potato beetle; melt a piece of butter, the size of a large egg, into half a pint of hot milk; mix it with the mashed potatoes until it is thoroughly incorporated, and a smooth mass; then put it in a deep dish, smooth the top over, and mark it neatly with a knife; put pepper over and serve. The quantity of milk used must be in proportion to the quantity of potatoes.

Mashed potatoes may be heaped on a flat dish; make it in a crown or pineapple; stick a sprig of green celery or parsley in the top; but first brown it before the fire or in an oven. Mashed potatoes may be made a highly ornamental dish.

Fried Potatoes

Peel and cut the potatoes into thin slices, as nearly the same size as possible; make some butter or dripping quite hot in a frying-pan; put in the potatoes, and fry them on both sides to a nice brown. When they are crisp and done, take them up, place them on a cloth before the fire to drain the grease from them, and serve very hot, after sprinkling them with salt. These are delicious with rump-steak, and in France are frequently served as a breakfast dish. The remains of cold potatoes may also be sliced and fried by the above recipe, but the slices must be cut a little thicker.

Broiled Potatoes

Cut cold boiled potatoes in slices lengthwise, quarter of an inch thick, dip each slice in wheat flour and lay them on a gridiron over a bright fire of coals; when both sides are browned nicely, take them on a hot

guess she went out into the kitchen and had them all guess what she was going to bring in. Sally got it right, because she had peeked in the cupboard where grandma had put it and when she saw the four little candles on it, she knew right away that it was her birthday cake.

After they had all had a nice piece of cake, grandma took Sally Ann upstairs and tucked her into bed. That night, she dreamed about horses, cows, beans, peanuts, and birthday cake.

dish, put a bit of butter, pepper and salt to taste over, and serve hot.

Potatoes and Cream

Mince cold boiled potatoes fine; put them into a spriddle with melted butter in it; let them fry a little in the butter, well covered; then put in a fresh piece of butter, seasoned with salt and pepper, and pour over rich cream or milk; let it boil up once and serve.

Potato Puffs

Prepare the potatoes as directed for mashed potato. While hot, shape in balls about the size of an egg. Have a tin sheet well buttered and place the balls on it. As soon as all are done, brush over with beaten egg. Brown in the oven. When done, slip a knife under them and slide them upon a hot platter. Garnish with parsley, and serve immediately.

Whipped Potatoes

Instead of mashing in the ordinary way whip with a fork until light and dry; then whip in a little melted butter, some milk, and salt to taste, whipping rapidly until creamy. Pile as lightly and irregularly as you can in a hot dish.

Scalloped Potatoes

Prepare in this proportion: Two cups of mashed potatoes, two table-spoonsful of cream or milk, and one of melted butter; salt and pepper to taste. Stir the potatoes, butter, and cream together, adding one raw egg. If the potatoes seem too moist, beat in a few fine bread crumbs. Bake in a hot oven for ten minutes, taking care to have the top a rich brown.

LAKE VILLA FAMILY
RETURNS HOME SUN.
FROM WESTERN TRIP

Bake Sale To Be Held On
Saturday at McDougall's
Store

Mr. and Mrs. C. B. Hamlin and Gordon returned Sunday evening from their western trip after visiting Glacier and Yellowstone parks and Seaside on the Pacific ocean. They also visited friends in Portland and Eugene, Oregon, Shelby, Montana, Payson, Utah, and Iowa. They traveled over 1,000 miles, a great many of which were in the mountains. Yellowstone park is a wonderful place to visit. The geysers, hot springs, paint pots, and the animals are very interesting, especially the bears, as they are very friendly unless molested. Elk and deer are plentiful and may be seen along the drives. They drove to the top of Mt. Washburn, which is 10,346 feet high. There is a fairly good road to the summit. It is a ride of 9 miles up one side and down another, with a wonderful view of the valleys below. Good camps, with cabins and showers may be had all along the way and the tourist may be very comfortable as he travels. The desert roads through S. E. Oregon, South Idaho and Wyoming are good, but the desert affords monotonous scenery. The wheat fields of the West were a marvelous sight and harvesting was in full swing. Corn in East Nebraska and Iowa was looking fine after the heavy rains of last week. Many fields were under water near Cedar Rapids, Iowa. The great canyon of

the Yellowstone, which alone is worth the trip, is one of the wonderful and awe-inspiring scenes of the world and one stands in silence before it.

F. R. Sherwood spent the first of the week at Madison, Wisconsin.

Mrs. M. Patterson of Beaucoup, Illinois, is spending a few weeks with her daughter, Mrs. Herbert Nelson.

James Atwell, who has been quite ill, is not much improved.

Everett Culver, who has been ill for several months, is still confined to his bed.

The Ladies' Aid society held its regular meeting with Mrs. McGlashan at her home on Wednesday. The ladies enjoyed a picnic dinner, after which the business meeting was held.

J. A. Pederson was taken ill while at his work in Chicago last week. He is recuperating at his home here.

Edgar Kerr, wife and daughter, accompanied by Mrs. Kerr's mother, were guests of Mr. and Mrs. James Kerr over the week-end.

Mrs. Clayton Hamlin and son, also Mrs. Hamlin's niece, Grace Mandole, of Evanston were guests of Mr. and Mrs. Fred Hamlin on Sunday.

Mrs. Edwin Petru and children of Chicago spent last Wednesday with her cousin, Mrs. Fred Hamlin.

Dependable
Motor Oils—
POLARINE
and **ISO-VIS**

You can depend on either of these two motor oils to lubricate your car as it needs to be lubricated. They are both sturdy, rich oils.

Because they are sturdy they will hold up under the trying conditions of country driving.

Because they are rich they will keep a cushioning film over every bearing surface.

ISO=VIS, the most sensational advance in motor oil, maintains a constant body—wears and wears and WEARS, lubricating at highest efficiency all the time. Many motorists run 1000 miles and more without draining the crankcase.

Polarine needs no introduction—for 20 years this dependable motor oil has been giving satisfactory service in millions of cars. If you want dependable lubrication for the least money, buy Polarine and drain the crankcase every 500 miles.

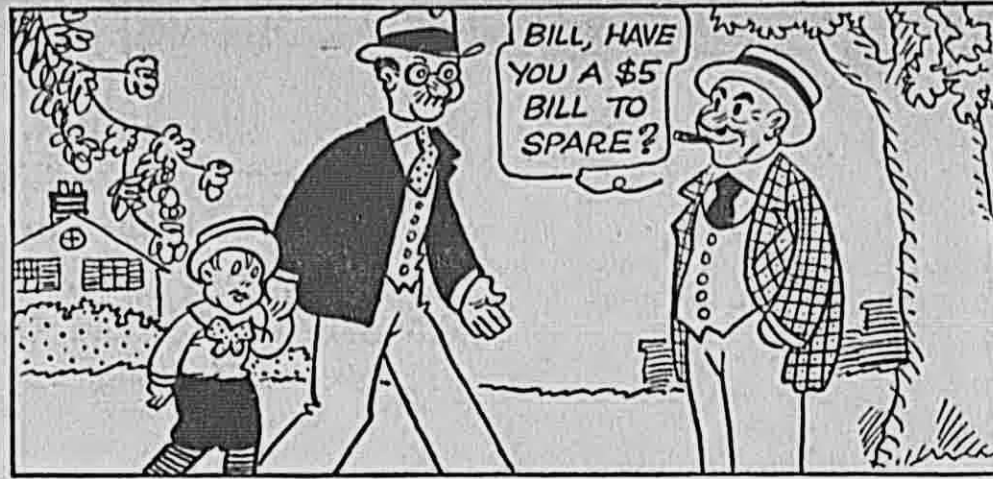

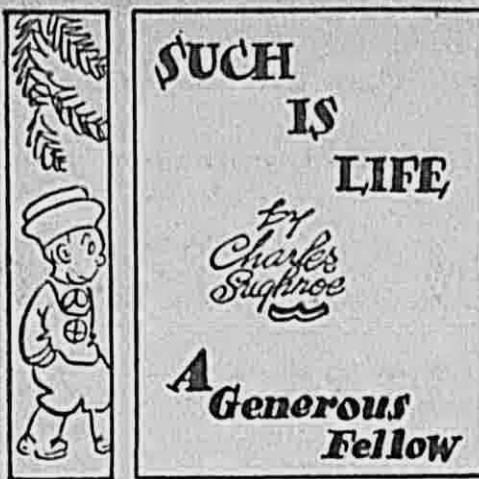

Polarine and ISO=VIS are made in different grades—use the grade made for your car.

SEE LAND OF LAKES IN NORTHERN ILLINOIS, MOTOR CLUB ADVISES

Circle Tour of 100 Miles Leads Through Beauty Spots

(This is one of the week-end tours suggested to motorists by the Automobile Club of Illinois. It is of special interest to Chain O' Lakes readers. A new map of the region is printed in the News this week for the first time.)

A visit to the famous lake resort regions of northern Illinois is the route suggested for the week-end tour outlined by the Touring Bureau of the Automobile Club of Illinois, in co-operation with this newspaper. The route, while not entirely a new one, is nevertheless considered one of the most beautiful as well as picturesque ones in the state. It takes in a number of lakes and winds its way through many of the resort sections.

One taking this trip, is hardly satisfied unless it is followed up with one or more. Each trip can be made so as to end at one of the famous resort centers, and enough of these spots are on hand to want to repeat it several times.

The trip going leads along beautiful Sheridan Road to Waukegan, Evanston, Wilmette, Kenilworth, Winnetka, Hubbard Woods, Glencoe, Fort Sheridan, Lake Bluff, Great Lakes Training Station and North Chicago are passed on the tour north.

From Waukegan, the road west becomes ideally scenic, passing in the midst of a multitude of lakes, both large and small, where one may fish, swim or camp. Many roads are shown on the map. Any one of these may be traversed if time can be spared. Each leads to a haven of restful beauty. A small body of water with sandy beach, known as Gage's Lake, is located just a bit off the road and east of Grayslake. It is clear as crystal, and takes on the semblance of a huge mirror.

The drive along the west shore of the Fox River on the return trip is most picturesque and should not be missed. The river, winding its way more than 100 feet below the road presents an interesting sight.

Letter Reveals Early Catholic Church History

The facts concerning the first expression of Catholic worship in Antioch were revealed in a letter which was received at this office from Mrs. Mary A. Hoyt, St. Catherine's hospital, Kenosha. The motive which prompted Mrs. Hoyt to recall this bit of early history was the article which recently appeared in The Antioch News concerning the laying of the corner stone of St. Peter's new Catholic church.

Mrs. Hoyt Investigates First Move

It was in 1878 that this same Mrs. Hoyt, who is now eighty-nine years "young", as she expresses it, put in application to Archbishop Quigley of Chicago for permission to have masses said in the Woodman hall here. In reply he said that he would grant her this privilege, if she would secure twenty-five residents to sign a petition to that effect. As Mrs. Hoyt was successful in obtaining the necessary signers, mass was said monthly by Father Bruton whom Archbishop Quigley delegated to come here.

It is interesting to note that the wives of four of the signers of that petition are still living, one of whom is Mrs. Hoyt. The others reside at Chetek, Wisconsin, Chicago, and Antioch.

will have an interesting story to tell. Remember the time, Sunday evening, August 11. The Methodist church is a friendly place. Visitors are made to feel at home. Everyone finds a cordial reception.

All services are held at standard time.

HIGHLAND PARK MAN CHARGED WITH MURDER

George Sullivan Is Believed to Have Killed Mrs. Geo. McGraw

George Sullivan, 35, Highland Park man, is in the county jail awaiting arraignment on the charge of murdering his landlady, Mrs. George McGraw, wife of a North Shore Line motorman.

Mrs. McGraw died Tuesday in the Highland Park hospital from wounds about the head, said to have been inflicted by a hammer and an ice pick.

Two former roomers, George M. Jones and John Mahoney, are being held in Highland Park without warrants as material witnesses. They are willing Mahoney claims, to remain in jail to clear themselves of any complicity in the crime.

Analyze Blood Stains
In order to build up his case States Attorney A. V. Smith sent the bloodstained clothing of Sullivan to William D. McNalley, coroner's chemist of Cook county, to learn if the stains were those of a human.

At the same time he ordered Coroner John L. Taylor, of Libertyville, to delay the inquest until Saturday in order to give the police more time to work up the case.

Sullivan has not talked to any extent, according to Moroney. He admitted that he and Mrs. McGraw had been drug addicts until a year ago.

Both Col. Smith and Moroney believe that Sullivan, insanely jealous of Mrs. McGraw, fought with her after she had taken a ride in a used car with Jones and Mahoney, from whom she purchased the machine.

Husband No Assistance
McGraw, the police said, had no idea that there was any feeling between his wife and the roomer. Information from him failed to aid the investigation.

Sullivan reported to the police Sunday that Mrs. McGraw had been found badly beaten by him in her home. Bloodstains on his shirt and minor wounds on his chest led to his arrest.

Hearing in the murder charge has been set for the same date as the inquest.

Spreading Printed Word
William Caxton made the first printing press of England in 1477. Frederick Koenig the first cylinder press, and the modern web press was made by Richard Hoe, New York, in 1871, and perfected to its present state.

Daily Thought
Be not uneasy, discouraged, or out of humor because practice falls short of precept in some particulars. If you happen to be beaten, return to the charge.—Marcus Aurelius.

The Misses June Beatty and Ruth Nixon and Joseph Ewers and John Watts, Palm Beach, Florida, went to Chicago Tuesday to attend the Cubs baseball game.

Chetek Experiences Excessive Heat

In answer to the several inquiries made here the past week in regard to how the Weatherman was using Chetek folks, we quote the following article from last Friday's "Alert": "During the past week or ten days Chetek and surrounding territory has been sweltering under an excess of heat as has not been felt here since 1913. At one time or another the temperature rose to 110 in the sun and over 90 in the shade. In fact it seemed almost necessary to put the thermometers in the refrigerator to keep them from being ruined by having the tops blown off.

About the only place in which one could be really comfortable was either in the lake, in front of an electric fan or else on a cake of ice. However, it will be only a few short months and then we can kick about how cold it is.

THE BELL SYSTEM IS BUILDING AHEAD OF THE GROWTH OF THE COUNTRY

This is the telephone's job and goal

The United States is developing a new civilization. The telephone is an indispensable element in it. The Bell System is building ahead of the growth of this civilization. In 1929 the telephone budget for land and buildings is 54 million dollars, with new buildings rising in 200 cities. New equipment for central offices will cost 142 millions; exchange lines 120 millions; toll lines 119 millions.

The Bell System's total expenditure for plant and service improvements this year will be 559 million dollars.

This outlay is required because the telephone is a universal servant of this democracy. Business uses it to create more prosperity. Homes use it for comfort and protection, for keeping friendships alive and enriching life. Its general use enables each personality to extend itself without regard to distance.

The telephone ideal is that anyone, anywhere, shall be able to talk quickly and at reasonable cost with anyone, anywhere else. There is no standing still in the Bell System.

SAMMY MANDELL'S BOYS COMING TO THE PALACE ARENA FRIDAY NIGHT

R. Trambie, Middleweight Champ, Meets Echols In Windup

Fight bugs are looking forward with enthusiasm to what promises to be the most interesting card of the season at the Antioch Palace Friday night, and right they are, for Promoter Macek and Matchmaker Walenwein have arranged an all-star program of seven bouts between popular Palace amateurs and the pick of Sammy Mandell's Rockford gym, fighting under the direction of Joe Schniffler, former trainer of Jack Johnson, now trainer of Sammy Mandell.

Ray Trambie, A. A. U. middleweight champion of the United States, returns to the Palace tomorrow night to be featured in the wind-up event with Corbett Echols, Chicago. In support of this windup a card of unusual merit has been arranged, including Joe Drinka, Buddy Beyers, Clarence Brown, Lyle Drake, Billy Gladstone, and Oscar O'Hannon, all popular with Lake county fans, and who are matched with the best amateurs from Mandell's gym. Looks like real entertainment at the Palace tomorrow night.

Stevens Wins Return Bout
Jackie Stevens took four rounds to defeat Joe Brown last Friday night. It was a return match staged after

Brown had won an unpopular decision over Stevens in four rounds a week previous. Battling almost even for three rounds, Brown seeming to have a shade the best of the slugging until the third session when Stevens put Brown to his knees to even things up and then pulled out in the fourth round to out-point his opponent and win the decision.

In the opening bout, Leo Donnelly won in three rounds over Red Schneider. The first round looked even, but Donnelly took the other two.

Henry Rasmussen, Racine, won a three round decision over Paul Harris, Grayslake. Both fighters seemed tired and out of condition, and each was missing with more punches than they landed.

The third fight was one of the best of the show, Howard Kraft defeating Ben Berliner in three rounds. Berliner was a bit groggy in the second round and persisted in low clinches and wrestling tactics until warned by the referee.

Don Conn won a close four round affair over Bobby Waddich. Both boys took a lot of punishment and were on the verge of being out before the bell, both hanging on while the crowd roared for action.

In the fifth bout Lyle Drake beat Eddie Garlow in four rounds. It looked like Drake's fight all the way, but at the end of three rounds the judges said it was a draw, then Drake slugged his way to unquestioned victory in the extra round.

A fine exhibition of shadow-boxing was put on by Oscar O'Hannon and George Sames in the opening round of the sixth battle. There was more action in the last two rounds, O'Hannon seeming to have the margin on points.

GOVERNOR EMMERSON ASKED TO AID ROAD CONSTRUCTION PLAN

Motor Club Wants Waukegan Road Included in Program

A resolution appealing to Governor Emmerson for assistance in Lake county's effort to have route 42A in the highway construction program was passed at a meeting held Friday at the Karcher hotel, Waukegan. The meeting was called by the Chicago Motor club, which is interested in the highway program for the metropolitan area.

Prominent Men on Committee
A definite proposition will be drafted and presented to Governor Emmerson by several prominent men who compose the committee constructed for that purpose. The list includes, Mayor L. J. Yager, who will act as chairman, Mayor Walter Atkinson of North Chicago, B. L. Henderson, acting president of the Chamber of Commerce, State Representative Lee McDonough and Frank T. Fowler, former secretary of the Waukegan-North Chicago Chamber of Commerce.

Carlstrom Asked to Give Opinion
The session resulted in a decision which demands that Attorney General Carlstrom express himself formally on the law which has been interpreted to mean the prohibition of the use of gasoline tax revenue on route 42A, which is one of the main roads leading north from Chicago. It is hoped that the attorney general will be able to utilize some of the funds from the fuel levy on the Waukegan branch.

Look Forward to Other Funds
It is further hoped that the Waukegan road might benefit from a portion of the \$6,500,000 collected under the 1927 gasoline bill which was believed to be unconstitutional and of the \$10,000,000 which was received from automobile registration fees. It

E. J. HEYDECKER, PIONEER LAWYER, DIES IN WAUKEGAN

Antioch Lodge to Conduct Funeral Rites Friday Afternoon

Attorney Edward J. Heydecker, pioneer member of the Lake County Bar association, and former master in chancery, died Tuesday night at his home in Waukegan where he had been on the verge of death for many weeks. He had been a practicing attorney in Lake county for the last 27 years.

During his residence in Waukegan he served as assistant state's attorney under his brother, the late Christian T. Heydecker, and later was appointed master in chancery by Circuit Judge Charles Whitely.

Last of Four Brothers
Edward Heydecker was the last of four brothers, the three who preceded him in death were: Christian T., Waukegan; Charles, Waukegan; and Adolph, Wadsworth. The family home was in Newport township, where the deceased was born in 1855.

Funeral services will be held Friday at 2 o'clock at the Christ Church chapel, Rev. Howard E. Ganster, officiating. Burial is to be in Millburn cemetery. The Antioch lodge, No. 127, A. F. & M., is to be in charge. Members of the Bar association are planning to attend the services in a body.

The Heydeckers, since 1844, have been prominent in county, social and political life. Dating from the arrival of the father, who was among the first to settle in Newport township, the name has been associated with progress in the county since that time.

Chairman of Farm Outlines Plan to Aid Farmers
The Federal Farm Board as now organized is not going to buy or sell any commodity, agricultural or otherwise, and funds entrusted to its care will be administered to carry out its program of strengthening the cooperative movement and the permanent betterment of farm conditions. Chairman Legg's statement was made in the course of an address before a meeting of the American Institute of Co-operation at Baton Rouge, La., and was designed to outline the policy to be pursued by the Board in carrying out the plan of the farm relief provided in the Agricultural Marketing Act.
